

AMAZING ASTRONOMY

WORKSHOP FOR KEY STAGE 2

**Did you
know that William
Herschel discovered
the planet Uranus
from his garden
in 1781?**

Find out about the solar system

Watch the film 'Constructing the Heavens'

Learn how and why an orrery was used

Visit 8 historic rooms and follow a trail

HERSCHEL
MUSEUM OF
ASTRONOMY

Supports the 'Earth and Space' Science programme of study

- ★ Learn about William and Caroline Herschel's remarkable discoveries by exploring their house at 19, New King's Street, Bath, BA1 2BL.
- ★ Watch a film and hear a talk about the wonders of the solar system including how and why orreries were used (a mechanical model of the planets).
- ★ Walk to the world famous No.1 Royal Crescent (10 minutes) and enjoy a hands-on orrery-making workshop in the Servants' Hall Learning Centre.

The workshop lasts 3 hours and is available on weekday mornings. £4.50 per student, adults free. Packed lunches can be eaten in the Learning Centre by arrangement.

For more information and to book,

contact Polly Andrews, Education Officer on 01225 333895 or pandrews@bptrust.org.uk

★ **Why not ask about joint visits with No.1 Royal Crescent at a discounted price?**
